

Database Technologies Assignment - 01  
Rollno: 210950320034, Name: Deepankar jadhav

Q18) Display the employee name and the job in brackets.

```
SELECT concat("(",Employee_Name,")") "Employee_Name",concat("(",Job,")")  
"Job" FROM emp.employee;
```

The screenshot shows the MySQL Workbench interface. The query editor contains the following SQL query:

```
1 • ame,")") "Employee_Name",concat("(",Job,")") "Job" FROM emp.employee;
```

The query has been executed, and the results are displayed in the Result Grid. The results show the employee names and jobs in brackets, as requested in the question.
